PROFESSIONAL SUMMARY

Electronics and Communication Engineering student skilled in Python, Embedded C, ESP32, Arduino, IoT, and LoRa. Experienced in developing embedded and IoT projects with sensor interfacing and cloud monitoring. Seeking an entry-level Software, IoT, or Embedded Engineering opportunity.,

EDUCATION

Jain Institute of Technology, Davanagere

B.E. Electronics and Communication Engineering

CGPA: 7.96

Expected Graduation: 2027

Basva priya collage channagiri

PUC (2023)

81.16%

S,S,J,V,P govt school santhebennur

SSLC (2021)

92.48%

TECHNICAL SKILLS

- **Programming:** Embedded C, Python, Verilog, VHDL, MATLAB.
- **Embedded Systems:** ESP32, Arduino, Microcontrollers
- **IoT:** LoRa, Sensor Interfacing, Cloud Monitoring
- **Protocols:** UART, SPI, I²C, Bluetooth
- **Tools:** Arduino IDE, Xilinx, Keil µVision, ThingSpeak.
- **Hardware:** Digital Electronics, PCB Design (Basics), Hardware Testing

PROJECTS

Smart Agriculture and Intelligent Motor Protection System using LoRa

- **Problem:** Farmers face inefficient irrigation and lack of real-time field monitoring.
- **Technologies:** ESP32, LoRa, IoT Sensors, Arduino IDE, ThingSpeak.
- **Contribution:** Developed an IoT-based system to monitor soil moisture, temperature, humidity, rain-fall, and motor status with cloud connectivity.
- **Impact:** Improved irrigation efficiency through long-range monitoring and remote motor management.

Library Silence Monitoring System

- **Problem:** Maintaining a quiet environment in libraries is difficult.
- **Technologies:** Arduino, Sound Sensor, Buzzer, Embedded C.
- **Contribution:** Developed a noise monitoring system that detects excessive sound and generates instant alerts.
- **Impact:** Helped maintain a peaceful study environment through automated noise monitoring.

ACHIEVEMENTS & ACTIVITIES

- Worked with **NoeticMinds** during the **1-Day Hackathon and 2-Day Build Marathon** at Jain Institute of Technology.
- Participated in the **Bengaluru Tech Summit** and explored emerging technologies in AI, IoT, and innovation.
- Collaborated with mentors and industry experts to develop practical technology solutions.
- Built hands-on experience in IoT, Embedded Systems, and hardware prototyping through academic projects.

LANGUAGES

English, Kannada, Hindi.

HOBBIES

Travelling and exploring new places, Learning New Technologies, Listening to Music
